

REMOTE ONLINE NOTARIZATION

RON Requirements

Everything you need to complete a secure, legally recognized Remote Online Notarization session with a Nevada Commissioned RON notary.

Technology Requirements

- Computer, tablet, or smartphone with **front-facing camera and microphone**
- Stable high-speed internet connection (Wi-Fi or cellular)
- Modern web browser: Chrome, Edge, Safari, or Firefox (fully updated)
- Working speakers or headphones
- Quiet, well-lit private location for the duration of the session

Identity Verification (Two-Step)

- **Credential Analysis** — upload photos of the front and back of your government-issued ID.
- **Knowledge-Based Authentication (KBA)** — answer a short set of identity-verification questions.
- You must complete both steps in a single session — success rates are highest with your recent credit / residence history at hand.

Documents to Have Ready

- The unsigned document in PDF format (do **not** sign in advance)
- Any exhibits, addenda, or supporting materials
- Reference / order / case numbers from the receiving party

Legal Recognition

Ross & Associates is **commissioned in the State of Nevada**. Nevada RON sessions are recognized in all 50 states where RON is legally accepted. If your receiving party has state-specific requirements, please confirm acceptance before scheduling.

Sessions are securely recorded and retained in accordance with Nevada RON regulations. Recordings are available to the signer upon written request.
